

The Arp Consulting Group offers professional consulting services in the realm of enterprise level GIS-based research systems.

The Arp Consulting Group

## Consulting Services

The Arp Consulting Group offers a wide range of consulting services to a number of industries including:

Real Estate | Asset Management | Public Health | Archaeology | Environmental Studies

Core Technological Competencies

ArcGIS Desktop | MapInfo | Google Earth Enterprise | Open Source GIS

## Core Consulting Competencies

- Enterprise GIS creation, implementation, training and maintenance
- Spatial Analysis & Spatially-based Research

## Needs Assessments

You know that you want to adopt and implement a geographic information system, but you don't know how to get there. Let us guide you through the process of choosing the right hardware, software, data, people and procedures that represent the best fit for your industry and needs.

## Implementation Plans

Now that your GIS needs have been outlined; we can provide direction on implementation. We will guide you through the process of putting all the pieces of a GIS together: from providing the appropriate software to providing ongoing support for your system's maintenance and critical updates.

## GIS-based Analysis

We provide solid analytical frameworks from which to analyze spatial data. We provide expert direction in choosing the correct data and appropriate spatial measures as well as creating the most visually engaging spatial output.

## Real Estate Industry GIS-based Market Studies

How well do you know your market? In the real estate industry, location is everything. Thus, it is important to think spatially. A solid GIS-based research program can help leverage local knowledge with GIS by locating the best deals in a systematic, rapid manner.

## Support & Training

As software and data changes, let us help you understand these changes through our seminars and classes. We bring years of experience to you and will guide you through the basics and advanced uses of GIS programs.

## Clientèle

Clients of the Arp Consulting Group represent respected leaders in their industries. Some of the past and present clients of the Arp Consulting Group include leaders in banking, economics, commercial real estate and land brokerage services as well as various archaeological and environmental projects. The Arp Consulting Group fosters long-term relationships and strives to add the most value to our clients' goods and services by leveraging the latest Geographic Information Systems technologies with proven spatial analytical techniques. The Arp Consulting Group has aligned themselves via strategic partnerships with outsource, informatics and software companies to further compliment the range of services the Arp Consulting Group provides.
